3 points

☐ Wildlife-rich estuary mud
3 points

☐ People crabbing
2 points

☐ Seaweed
3 points

DID YOU KNOW? This estuary was formed after the Ice Age when high sea levels drowned the river valley. This is called a **ria**. Unusually, our estuary has lost its river and is now more of a tidal inlet. It is so rich in wildlife that it is a **Site of Special Scientific Interest**. See what else you can find out it and remember, **always treat wildlife with respect!**
